North Model 832
Self-Contained Breathing Apparatus

North Safety Products Model 832 SCBA is a low cost and worry free unit, designed specifically for use in non-fire emergency situations, for egress from a contaminated area, or for clean up of chemical/toxic spills and accidents. It is easy to use, easy to maintain and extremely durable. The Model 832 SCBA comes with a full year, no-hassle warranty on parts and service.
**Features** | **Benefits**
---|---
Utilizes the North soft silicone Full Facepiece design with dual sealing flange, oral/nasal cup and polycarbonate lens with greater than 200° field of vision. | Gives the user unsurpassed protection and ensures greater worker acceptance. Common facepiece design to the 7600 Series air-purifying respirator reduces fit testing costs and user training.
Reducer/Regulator has only three moving parts, a “fail-open” design and protected housing. | Substantially reduces repair costs, possible malfunction and assures user of a supply of air as long as there is air in the cylinder.
Automatic positive pressure demand with only three moving parts and “fail-open” design. | Eliminates the error of using SCBA in a demand mode, reduces possibility of malfunction and assures user of a supply of air as long as there is air in the cylinder.
Comfortable and adjustable polypropylene harness system and ergonomically designed aluminum backplate. | Provides user comfort and ease of adjustment. Lightweight design distributes weight over a large area for added comfort.
30 minute rated low pressure (2216 psi) Aluminum Cylinder, with 45 Cu. Ft. capacity. | Approved for entry and escape from IDLH atmospheres.
Chest mounted Pressure Gauge. | Positioned in an easy to read position.
Chest mounted Warning Whistle. | Positioned for ease of use. Rugged and dependable.
NIOSH approved. | To meet OSHA requirements.

**WARRANTY:**
North Safety Products, Inc. warrants the 832 Series Self-Contained Breathing Apparatus to be free from defects in materials and workmanship. North’s only obligation under this warranty will be, at North’s option, to repair or replace without charge the apparatus or any of its components found by North to have been defective during the warranty period, under the following terms:

1. The warranty claim is made (i) by the owner who purchased the apparatus new from North or an authorized North distributor, as shown on the completed Warranty Registration Card returned to North and (ii) not more than three (3) months after the end of the warranty period.

2. The apparatus or components (except the Reducer/Regulator Assembly) is found by North to have been defective during the warranty period of one (1) year from the date of purchase by the owner; for the Reducer/Regulator Assembly, the warranty period is five (5) years from the date of shipment by North.

3. The apparatus or component is returned freight prepaid to North, either to its factory in Cranston, Rhode Island, or to a North authorized service center, and is thereafter returned to the owner freight collected.

4. This warranty does not apply (i) to any apparatus or component found by North to have become defective as a result of any accident, alteration, misuse, abuse, servicing with parts not approved by North, or (ii) to deterioration or aging of any component made of rubber or any other elastomer.

This warranty is made in lieu of all warranties of merchantability, fitness for purpose, and all other warranties, express or implied. The owner or user of this product assumes all other risks, if any, such as the risk of any direct, indirect or consequential loss or damage arising out of the use of, or inability to use, this product. This warranty may not be varied or extended except in writing by an authorized official of North.

**SERVICE POLICY:** Authorized Service Centers will be established to provide rapid turnaround of critical components. Turnaround times for demand valve assemblies, reducer/regulator assemblies, facepieces and alarm whistles will be 2 days maximum in cases involving an emergency request.
